

The moving box problem React.js

y axis

(0,0)

(x, y) Current coordinates.

actions

arrow-left: x: -10px

arrow-right: x: +10px

arrow-up: y: -10px

arrow-down: y: +10px

Content Box

border: 5px #26282E

width: 90%,

height: 70%

vertically centered

horizontally centered

Movable Box

width: 10px,

height: 10px

background: #EB4769

The box should move according to above stated actions. Display the current coordinates next to the box. The rest of the design is optional but whats stated above must be fullfilled. Origo is in the top left quorner. The red box should not be able to move outside the border.
